211	Public Forum A member of the public asked a number of questions about the tree works being carried out at Ellingham Way and whether permission had been given for a resident to cut back trees. These questions were answered by Cllr Reed and the member of public left the meeting. A member of the public expressed concerns about the laurel hedging and ivy growing around the walk through from the cenotaph to Lavister Close and into bordering gardens. It was agreed to review with the grounds maintenance contractor what could be done about this. Several members of the public expressed concerns about the maintenance plan for the spine road hedge between Prestbury Close and the cenotaph. A discussion with the councillors then followed about how the maintenance could be carried out in an acceptable way to meet the councils objectives but that was also sympathetic to the residents requests. It was then noted that the plan would be discussed in agenda item 212. Several members of the public expressed their concerns about the proposed plan to plant additional woodland trees in Burwardsley Way. A discussion with the councillors was then held and it was noted that a decision about the plan would be made in agenda item 213.
